

Alex Chen

Junior Data Analyst

Melbourne, Australia alex.chen@example.com 0400 000 000

Profile

Recent business analytics graduate with practical experience cleaning data, writing SQL queries and preparing Excel reports. Looking for a junior analyst role where I can turn messy data into clear, useful insights.

Skills

- Excel, SQL, Data cleaning, Data validation
- Analytical thinking, Attention to detail, Communication, Teamwork

Projects

Retail Sales Analysis	Apr 2026
University project using a synthetic retail dataset.	
• Cleaned 2,400 transaction records in Excel, corrected inconsistent dates and removed 36 duplicate rows. • Used SQL joins and aggregations to compare monthly sales by product category. • Created pivot tables and charts, then presented three findings to a four-person project team.	
Student Survey Data Quality Review	Nov 2025
• Reviewed 180 anonymous survey responses for missing values and inconsistent labels. • Documented cleaning rules and prepared a one-page summary of participation trends.	

Experience

Example Retail , Reporting Assistant - Part-time	Melbourne
• Updated weekly sales spreadsheets and checked totals against source records. • Flagged missing entries and explained reporting issues to the store supervisor. • Maintained a shared checklist to make handovers clearer for colleagues.	July 2025 – Feb 2026 8 months

Education

BSc Example University , Business Analytics	Melbourne
• Relevant coursework: Database Fundamentals, Business Statistics, Data Visualisation.	Mar 2023 – June 2026
